## Beauty Brand Directory

## *Note from the Editor*

*Welcome to the first beauty directory for Black-owned brands.*

*You will find many wonderful brands from all over the world that have been created for us by us. For years we have featured Black-owned brands on our platforms and as the spotlight is now on Black-owned businesses we decided to create the first beauty directory dedicated to Black beauty. We think this is more than needed. Delve into the directory and you will find a fantastic collection of haircare, skincare and makeup products along with beauty boxes, candles and diffusers as well as online retail sites that stock products that are perfect for you. These Black-owned brands are also offering you special incentives and discounts to use with your purchases.*

*Our platform is a space where Black and Asian women can take a few minutes out from their busy and hectic lives to indulge in all things beauty. We connect beauty lovers and enthusiasts with brands that cater to them and we do this through our website, newsletter, Social Media channels and events.*
